

CyberMiner Installation Process

Step 1: Extract File in your device.

Step 2: Make Database

Step 3: Upload Sql file in your database

Step 4: Upload the “Cyberminer Mining HSPAY.zip” file in root folder

Step 5: Change your database details from public_html/Cyberminer/cyberminer/.env

```
APP_NAME="CyberMiner"
APP_ENV=local
APP_KEY=base64:NHH60WizQ3wByGBwBfSnItCA4kS9qlxhiUeWDtTI2bE=
APP_DEBUG=false
DEBUGBAR_ENABLED=false
APP_URL=https://demominescript.site/

DB_CONNECTION=mysql
DB_HOST=localhost
DB_PORT=3306
DB_DATABASE=demominescript_dem
DB_USERNAME=demominescript_dem
DB_PASSWORD=6k*{YSW;3lDKl-2~
```

Change only the below details:

```
APP_NAME="CyberMiner"
APP_URL=https://demominescript.site/
```

```
DB_DATABASE=demominescript_dem
DB_USERNAME=demominescript_dem
DB_PASSWORD=6k*{YSW;3lDKl-2~
```

Step 6: Open your admin Panel:

<https://yourdomain.com/admin>

Admin Details:

Username: admin

Password: 123456

How to change admin prefix?

[public_html/Cyberminer/cyberminer/config/cyber_miner.php](#)
